**OVERVIEW:** PROPOSALS SHOULD FOCUS ON ISSUES AND LANDSCAPES OF NATIONAL IMPORTANCE WITH MEANINGFUL OUTCOMES ON THE GROUND.

The California Department of Forestry and Fire Protection (CAL FIRE) is soliciting grant proposals for the Western Competitive Grants Process for the 2010 federal fiscal year. For fiscal year 2010, a portion of the USDA Forest Service State and Private Forestry (S&PF) Western regional allocation will be dedicated to funding projects selected through a competitive grant process. Prioritized project applications will be submitted by States and then screened and evaluated by the FY 2010 Interdisciplinary Grant Team. Approximately 15% of the following S&PF programs will be used to fund the competitive grant process in FY2010: **Cooperative Forest Health, Cooperative Fire, Forest Stewardship, and Urban & Community Forestry**. It is incumbent upon the project proponent to work together with the State(s) and Forest Service Regions to develop and refine project proposals whose activities are within the authorities for these S&PF programs.
