

Camping Safety

In Recreational Vehicles

- Use only electric or battery lights in RVs.
- Clean and maintain appliances, gas connections, and fume vents.
- When using propane appliances, light a match before turning on gas.
- Place portable heaters away from combustibles.
- Do not block exit ways.
- Extinguish smoking materials before retiring.
- Teach children to operate emergency escape hatches.
- Keep a fire extinguisher by the exit door, and install a battery operated smoke detector.
- Prepare and practice a fire escape plan.
- In case of fire while driving, turn off the ignition and evacuate the vehicle.

In Tents

- Buy only a flame-resistant tent.
- Clear a 3-foot area around tent site.
- Keep lanterns and open flames outside tent.
- Extinguish fires and turn off lanterns and stoves before retiring.
- Keep a fire extinguisher inside tent.
- Be prepared to cut your way out of the tent if a fire occurs.

With Campfires

- Secure necessary permits to build a campfire.
- Locate campfire a safe distance from tents, trees, or buildings.
- Scrape away grass and needles within a 10-foot diameter.
- Be sure campfire is out before leaving the area.
- Wear snug fitting clothing around campfires.
- Supervise children closely around a campfire.
- Teach everyone to STOP, DROP, and ROLL.

With Flammable Liquids

- Use flammable liquids only for intended purpose.
- Fill lanterns and stoves away from heat sources.
- Use a funnel; clean spills immediately.
- Store flammable liquids outside, away from tent or RV.
- Store in approved metal safety can.
- Transport only minimal amounts in well-ventilated area.
